MoneyPlus Worksheets

To figure out how much to deposit in your MoneyPlus accounts, refer to the following worksheets. Calculate the amount you expect to pay during the plan year for eligible, uninsured, out-of-pocket medical and/or dependent care expenses. This calculated amount cannot exceed established IRS and plan limits. For a Medical Spending Account, there is no minimum and a $2,500 maximum. For a Dependent Care Spending Account there is no minimum, and the maximum depends on your tax filing status. If you are married and filing separately, your maximum annual deposit is $2,500. If you are single and head of household, your maximum annual deposit is $5,000. If you are married and filing jointly, your maximum annual deposit is $5,000. If either you or your spouse earn less than $5,000 a year, your maximum annual deposit is equal to the lower of the two incomes. If your spouse is a full-time student or incapable of self-care, your maximum annual deposit is $3,000 a year for one dependent and $5,000 a year for two or more dependents.

Be conservative in your estimates, since any money remaining in your accounts cannot be returned to you or carried forward to the next plan year.
