Express Scripts has notified impacted members of this upcoming change. As of July 1, 2016, members will be subject to the entire cost of the medication if they use one of these pharmacies. However, there are many pharmacies in the PEBA network and finding another pharmacy is easy.

How to find an in-network pharmacy

- Search for a pharmacy online by logging in at Express-Scripts.com. Select Locate a Pharmacy from the Manage Prescriptions menu. First-time visitors need to register. Have your member ID number handy.
- Call a local pharmacy to ask if they accept the State Health Plan and stock the specialty prescription needed.

As part of your prescription drug benefit, members also have access to the enhanced services of Accredo, an Express Scripts specialty pharmacy. By filling specialty prescriptions through Accredo, members will pay only their copayment and receive a variety of specialized services. More information about Accredo is available online at Express-Scripts.com.

Members who have questions or would like additional information about participating pharmacies may call Express Scripts at 855.612.3128.
