

Using EES for retirement enrollment elections

Participating employers are strongly encouraged to initiate and submit retirement enrollment elections in [EES](#). Submitting retirement enrollments through EES is a secure way to send confidential employee information and eliminate the chance of errored or rejected enrollments. It also eliminates the use of [paper forms](#) (Forms 1100 and 1104), which require additional time for delivery and processing.

The online enrollment process requires a valid email account an employee can access. Provide employees with the [Retirement Enrollment Guide for New Hires](#) flyer for more information.

For state agencies that process their payroll through the Comptroller General’s office, the hiring information you submit in SCEIS is shared with PEBA on a daily electronic file. No additional forms are required, unless PEBA staff specifically requests a document. It is important to note that members should designate beneficiaries in [Member Access](#). Share the [Designating Active Member Beneficiaries](#) flyer.

Additional help on the page informs the employee of the election deadline. Per the S.C. Code of Laws, an employee has 30 days from their hire date to make a retirement plan election. If no election is made, the employee's membership will default to the plan indicated.

The EES enrollment feature ensures an employee adheres to the enrollment rules set forth in the S.C. Code of Laws. If the employee is eligible for non-membership or the State Optional Retirement Program (State ORP), information about these options is included on the webpage.

To make an election, the employee must select the appropriate option, then select *Continue*. If the employee elects State ORP, they must also select a service provider.

Your part of the enrollment is complete.

The information you have submitted has been sent to your employer. Your employer will review this information and complete the enrollment process for you.

The employee must review their enrollment and election. The employee may use the *Back* button to make any changes or corrections. If no corrections are needed, the employee selects *Confirm* to complete the enrollment.

Once the employee makes their election, the enrollment status in EES will change to *Employee has elected a plan. Needs employer acceptance.*

Employee has elected a plan. Needs employer acceptance.

Select the enrollment to review the information and employee election. If you choose to edit the enrollment, the employee will receive another email to review the changes, and they may be required to make an election decision again. You can also delete the enrollment, if necessary.

Review the retirement plan election and notify your payroll department of the election. A non-membership election does not require retirement contributions to be withheld from an employee's wages. SCRS, State ORP and PORS elections require a percentage be withheld from an employee's wages for retirement contributions. State ORP elections also require that retirement contributions be forwarded to the selected service provider.

Acceptance is required.

A State ORP participant who accepts an additional concurrent position with an employer participating in SCRS must enroll in State ORP for the second position if the second position is eligible to participate in State ORP.

If PEBA records indicate an employee is employed or actively working with another covered employer, the hiring employer must indicate if the employee has terminated or will terminate employment from the other employer or employers.
