

MoneyPlus Medical Spending Account

Match claims to outstanding transactions

 EXPLANATION OF BENEFITS

What is the claims matching feature?

ASIFlex receives claims data for health, dental and vision insurance claims and uses this data to auto-validate Medical Spending Account (MSA) debit card transactions. Participants can now see a list of unmatched health, dental and vision insurance claims in their ASIFlex participant account and can use this list to provide documentation for outstanding debit card transactions. You will see this option only if you have outstanding debit card transactions.

Step 1

From the Unmatched Insurance Claims grid, select the insurance claim(s) you wish to apply to an outstanding debit card transaction.

Step 2

From the Outstanding Debit Card Transactions grid, select the card transaction(s) to which you wish to apply or match the insurance claim(s). Enter the amount to satisfy for each transaction and click Submit.

Getting started is easy

1. Log in to your participant account at www.asiflex.com/SCMoneyPlus.
2. View the Account Detail for your Medical Spending Account.
3. Select Apply Insurance Claims Data to Outstanding Debit Card Transactions.
